

# Energy & Environmental Solutions

*ACCO Engineered Systems is an employee owned contractor with expertise in the areas of heating, ventilating, air conditioning, refrigeration, process piping, plumbing, industrial construction, building control systems, as well as service retrofit and maintenance.*

*ACCO is a fully integrated company with complete in-house engineering, fabrication, installation, commissioning and service capabilities. This integrated delivery system allows ACCO to provide its customers with the most practical, cost effective solutions for their particular mechanical and control system requirements.*

## ACCO Energy & Environmental Solutions Reduce Costs & Increase Comfort

ACCO uses a systematic process for identifying less than optimal performance in existing buildings resulting in maximum energy efficiency and improved indoor air quality and comfort.

### Do You Have Questions About these Issues?

- ▶ **Unexpected utility expenses due to variances in energy costs?**
- ▶ **Unexplained increases in energy consumption?**
- ▶ **Increased operating & maintenance expenses attributable to inefficient equipment?**
- ▶ **Concerns about the environmental impact associated with energy consumption?**
- ▶ **Poor Energy Star Rating?**
- ▶ **Difficulty understanding State, Regional or Local Regulations?**
- ▶ **Sustainability Attributes?**
- ▶ **What is my carbon footprint?**
- ▶ **How green is my building?**

### ACCO's Solutions:

- ▶ **Utility Bills Analysis** to establish baseline energy & cost trends
- ▶ **Comprehensive Energy Audits**
- ▶ **Development of ECMs (Energy Conservation Measures)** to maximize energy & operating costs
- ▶ **Enhanced Control Strategies** with optimization characteristics designed to maximize energy consumption
- ▶ **Investment Grade Life-Cycle Financial Analysis**
- ▶ **Utility Incentive Rebates** determination
- ▶ **Design/Build & implementation of ECMs**
- ▶ **Measurement & verification of implemented ECMs**
- ▶ **Continuous Commissioning**
- ▶ **Ensure implemented ECMs continue to perform as designed**
- ▶ **Monitoring and Trending of systems** to react to changes in the environment or equipment malfunctions

## Energy & Environmental Solutions Flowchart

ACCO Engineered Systems offers a wide array of Energy Saving Solutions to our customers. Our in-depth approach to Energy Efficiency starts by listening to our customers' goals and objectives, and we analyze and implement innovative energy conservation measures that meet or exceed our customers' expectations.
